

INFORMATION SECURITY POLICY

At FRAME ART STUDIO d. o. o. , we are aware of our responsibility to ensure information security in our work and in our dealings with suppliers and customers.

The objectives of the Information Security Policy are:

- Ensuring information security in the processes of product development and service delivery to the market,
- Ensuring that all parties involved in the operation and business of the company are provided with quality information,
- Handling information (personal data, business secrets),
- Ensuring business continuity and minimising business damage by preventing and mitigating the consequences of security incidents,
- Ensuring that all employees are highly aware of security risks and protection methods.

The purpose of an information security policy is to identify the importance of information to the company's business and to protect it appropriately in terms of confidentiality, integrity and availability:

- Confidentiality: ensure that only authorised persons have access to the information,
- Integrity: protecting the accuracy and completeness of information by preventing unauthorised changes,
- Availability: providing authorised persons with access to information and related resources when they need it.
